The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding

The first introductory public policy text with a strong economics perspective. A new textbook by Charles Wheelan, author of Naked Economics, Introduction to Public Policy uses economic principles to demonstrate that sound public policy occurs when unfettered private markets provide the greatest good for the greatest number. Only when it does not do this is government intervention needed.

the Big Three unveiled entrants in a new class of car called the compact. Chrysler's offering, the Plymouth Valiant, was paired with its redesigned 6-cylinder engine entrant, the Slant Six, known by its nickname the "leaning tower of power." This engine powered the Valiants when they swept the top seven positions in the newly christened compact race that precluded the Daytona 500. With its legacy intact, Chrysler's Slant Six powered Mopar automobiles for decades to come in three displacement offerings (170, 198, 225). With millions of Slant Six engines built over the 30-plus years that the engine was produced, it's always a good idea to have this book handy, as you never know when the next "leaning tower of power" will find its way into your garage! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Revealing a world beyond the stereotype, My Cool Campervan celebrates the new wave of interest in modern-retro campervans. When people think of campervans, they almost always recall the iconic VW T2, that familiar, happy-faced van that embodies the virtues of enjoying the journey and taking your time. However, there is a world of forgotten campervans out there and an idiosyncratic world of individual conversions to campers. Join Jane Field-Lewis and Chris Haddon as they set off on a 3,500-mile trip to locate campervans and their proud owners, who share their memories of family holidays

and long road trips. Delve into the world of road-tripping as they reveal a succession of delightful campervans, memorable locations, and classic models, at times beautifully restored, and at others well-loved and well-used. My Cool Campervan reveals a world beyond the stereotype and is a celebration of campervans' evolving styles and designs.

Renowned automotive writer Pat Foster celebrates the simple joy of hitting the highway in a vintage camper, trailer, RV, or van in this illustrated examination of their hardware and cultural histories—featuring evocative modern photography of restored and original-condition campers, as well as period photos and advertising art. The look, the feel, and the sheer style of vintage campers and trailers are impossible to duplicate in sterile modern units. It's little wonder more and more of us, from all walks and ages, are ditching the increasingly hectic modern life and rediscovering the simple freedom of small, uncluttered spaces and the wide-open road. Foster breaks down the subject by camper categories, illustrating his knowledgeable text with beautiful modern and period images. Sidebars examine topics like clever designs that make small living possible, the evolution of campers and gear over the ages, tips for trailer living, first-person anecdotes from enthusiasts, and much more. Along the way, Foster covers all of the most popular camper and van brands, such as
