Preserving the wisdom of fashion's big names, from Chanel on perfume, to Dior on elegance and Schiaparelli on hats, this charming compendium is illustrated with newly commissioned line drawings of accessories and clothing from the V and A's celebrated fashion collection by Emma Farrarons. This collection of essays brings together many separate but related issues which form the focus of contemporary research into the history of dress. Historically, in

Britain at least, investigations of dress were primarily informed by historical and empirical protocols, although the symbolic meaning of dress was explored by anthropologists and sociologists, who tended to concentrate on either non-Western cultures or British or Western sub-cultures. In recent years these approaches have moved closer together partly as a result of the impact of feminism.

The Handbook of Fashion Studies identifies an innovative spectrum of thematic approaches, key strands and interdisciplinary concepts that continue to push forward the boundaries of fashion studies. The book is divided into seven sections: Fashion, Identity and Difference; Spaces of Fashion; Fashion and Materiality; Fashion, Agency and Policy; Science, Technology and New fashion; Fashion and Time and, Sustainable

Fashion in a Globalised world. Each section consists of approximately four essays authored by established researchers in the field from the UK, USA, Netherlands, Sweden, Canada and Australia. The essays are written by international subject specialists who each engage with their section's theme in the light of their own discipline and provide clear case-studies to further knowledge on fashion. This consistency provides clarity and permits comparative analysis. The handbook will be essential reading for students of fashion as well as professionals in the industry.

'Fashion is not something that exists in dresses only; fashion is something in the air.' - Coco Chanel This is a fascinating account of one of the most admired and influential fashion designers of all time. The focus is on Chanel the couturiere and

her immense influence on the way women choose to dress in the modern world. The story is brought up to date with a final chapter based on an interview with Karl Lagerfeld.

Hannah Gluckstein (who called herself Gluck; 1895 – 1976) was a distinctive, original voice in the early evolution of modern art in Britain. This handsome book presents a major reassessment of Gluck's life and work, examining, among other things, the artist's numerous personal relationships and contemporary notions of gender and social history. Gluck's paintings comprise a full range of artistic genres—still life, landscape, portraiture—as well as images of popular entertainers. Financially independent and somewhat freed from social convention, Gluck highlighted her sexual identity, cutting her hair short and dressing as a

man, and the artist is known for a powerful series of self-portraits that played with conventions of masculinity and femininity. Richly illustrated, this volume is a timely and significant contribution to gender studies and to the understanding of a complex and important modern painter.

Clara loves hats, and when her older brother Ollie breaks her favourite, Mum takes them on a special hat day out. While visiting the Victoria & Albert Museum, Clara gets lost and embarks on an exciting journey of discovery.

As bold and vital as the styles that inspired it, *Surfers, Soulies, Skinheads and Skaters* goes back to the source, charting the circle of street style from the forties to the nineties, and featuring nearly 200

authentic outfits in striking photographs with amazing detail that includes shoes, jewelry and accessories. A fascinating dimension is added as the authors place examples of street fashion alongside the high fashion creations they have influenced, illustrating how these fashions "trickled up" to inspire top designers including Calvin Klein, Versace, Chanel and Yves Saint Laurent. Accompanying the photographs are detailed descriptions and quotes from the wearers, giving their own highly individual views of their particular outfits. This is a flamboyant, one-of-a-kind survey of subcultural style that no one interested in fashion or design will want to miss.
