Though colleges and universities are arguably paying more attention to diversity and inclusion than ever before, to what extent do their efforts result in more socially just campuses? Intersectionality and Higher Education examines how race, ethnicity, class, gender, sexuality, sexual orientation, age, disability, nationality, and other identities connect to produce intersected campus experiences. Contributors look at both the individual and institutional perspectives on issues like campus climate, race, class, and gender disparities, LGBTQ student experiences, undergraduate versus graduate students, faculty and staff from varying socioeconomic backgrounds, students with disabilities, undocumented students, and the intersections of two or more of these topics. Taken together, this volume presents an evidence-backed vision of how the twenty-first century higher education landscape should evolve in order to meaningfully support all participants, reduce marginalization, and reach for equity and equality.

The Workbook for Foundations of Financial Literacy is organized to follow the textbook on a chapter-by-chapter basis, providing questions to help the student review the material presented in the chapter. This supplement is a consumable resource, designed with perforated pages so that a given chapter can be removed and turned in for grading or checking.

The secret to an extraordinary life starts with five simple changes that anyone can make. No matter who you are, where you come from, what you do for a living, or how much money you have, everyone has a shot at greatness. Zack Friedman has inspired millions with his powerful insights, including more than fourteen million who have read his advice in Forbes. In his ground breaking new book, The Lemonade Life, Friedman starts with a fundamental question: What drives success? It's not only hard work, talent, and skill. The most successful people have one thing in common, the power to flip five internal "switches." We all have these five switches, and when activated, they are the secret to fuel success, create happiness, and conquer anything. The Lemonade Life is filled with inspirational and practical advice that will teach you: Why you should write yourself a \$10 million check Why your career depends on the Greek alphabet Why you need ikigai in your life How Judge Judy can help you have better work meetings How these twenty questions will change your life Learn from the entrepreneur who failed 5,126 times before becoming a billionaire, the fourteenth-century German monk who helped reinvent Domino's Pizza, the technology visionary who asked himself the same question every morning, the country music icon who bought more than one hundred million books, and the ice cream truck driver who made \$110,237 in less than one hour. With powerful stories and actionable lessons, this book will profoundly change the way you live, lead, and work. Your path to greatness starts with a simple choice. Everyday, you're choosing to live one of two lives: the Lemon Life or the Lemonade Life. Which life will you lead?
