Bloody River or Stone Fort River is a river or ghaut (locally called) in Saint Kitts (an island in the Caribbean) which starts from the South East Range, flows west of the village of Challengers and exits at Bloody Point. Evidence of Indian occupation going back thousands of years is in the form of some petroglyphs.

Bloody River - Wikipedia

It's More about the Story Any tour to the north of the island will almost certainly take you to Bloody River, where 2000 Caribbs natives were massacred by British and French forces. The river is said to have run red with blood for 3 days. Now it is just a dried up and overgrown river bed.

The highlight of the day was the petroglyph canyon at Bloody Point. Basically, you can hike up the Bloody River through wilderness to where the can... Interesting enough, the first time I visited St. Kitts we did a cruise ship excursion of the island and never learned about Bloody Point.

Bloody Point (St. Kitts) - 2020 All You Need to Know ...

An epic novel by an award-winning author chronicles the settling of the Ohio River Valley, home to the defiant Shawnee Indians, who vow to defend their land against the seemingly unstoppable.

An award-winning author chronicles the settling of the Ohio River Valley, home to the defiant Shawnee Indians, who vow to defend their land against the seemingly unstoppable. They came on foot and by horseback, in wagons and on rafts, singly and by the score, restless, adventurous, enterprising, relentless, seeking a foothold on the future. European immigrants and American colonists, settlers and speculators, soldiers and missionaries, fugitives from justice and from despair—pioneers all, in the great and inexorable westward expansion defined at its heart by the majestic flow of the Ohio River. This is their story, a chronicle of monumental dimension, of resounding drama and impact set during a pivotal era in our history: the birth and growth of a nation. Drawing on a wealth of research, both scholarly and anecdotal—including letters, diaries, and journals of the era—Allan W. Eckert has delivered a landmark of historical authenticity, unprecedented in scope and detail.

Blumenson shows leadership's role in a disastrous World War II battle on theItalian peninsula, documenting how the Rapido tragedy reveals the high-pricedlessons of war. 11 photos. 2 maps. Index.

2021 Frederick Douglass Book Prize Finalist Named One of the Best Books of the Year by NPR A breathtakingly original work of history that uncovers a massive enslaved persons' revolt that almost changed the face of the Americas On Sunday, February 27, 1763, thousands of slaves in the Dutch colony of Berbice—in present-day Guyana—launched a massive rebellion which came amazingly close to succeeding. Surrounded by jungle and savannah, the revolutionaries (many of them African-born) and Europeans struck and parried for an entire year. In the end, the Dutch prevailed because of one unique advantage—their ability to get soldiers and supplies from neighboring colonies and from Europe. Blood on the River is the explosive story of this little-known revolution, one that almost changed the face of the Americas. Drawing on nine hundred interrogation transcripts collected by the Dutch when the Berbice rebellion finally collapsed, and which were subsequently buried in Dutch archives, historian Marjoleine Kars reconstructs an extraordinarily rich day-by-day account of this pivotal event. Blood on the River provides a rare in-depth look at the political vision of enslaved people at the dawn of the Age of Revolution and introduces us to a set of real characters, vividly drawn against the exotic tableau of a riverine world of plantations, rainforest, and Carib allies who controlled a vast South American hinterland. An astonishing original work of history, Blood on the River will change our understanding of revolutions, slavery, and of the story of freedom in the New World.

The author recounts his quest through the Congo as he retraced the 1874 expedition of explorer H.M. Stanley to map the Congo River, aided by characters ranging from U.N. aid workers to a pygmy-rights advocate.

Jeffery Deaver is the New York Times bestselling author of The Empty Chair and The Devil's Teardrop. Here his trademark "licking-bomb suspense" (People) explodes off the page in another heart-stopping thriller. Hollywood location scout John Pellam thought the scenic backwater town of Maddox, Missouri, would be the perfect site for an upcoming Bonnie and Clyde-style film. But after real bullets leave two people dead and one cop paralyzed, he's more sought after than the Barrow Gang. Pellam had unwittingly wandered onto the crime scene just minutes before the brutal hits. Now the feds and local police want him to talk. Mob enforcers want him silenced. And a mysterious blonde just wants him. Trapped in a town full of sinister secrets and deadly deceptions, Pellam fears that death will imitate art, as the film shoot -- and his life -- race toward a breathtakingly bloody climax.

Traveling to the New World in 1606 as the page to Captain John Smith, twelve-year-old orphan Samuel Collier settles in the new colony of James Town, where he must quickly learn to distinguish between friend and foe. Reprint.

On December 31, 1862, some 10,000 Confederate soldiers streamed out of the dim light of early morning to stun the Federals who were still breakfasting in their camp. Nine months earlier the Confederates had charged the Yankees in a similarly devastating attack at dawn, starting the Battle of Shiloh. By the time this new battle ended, it would resemble Shiloh in other ways - it would rival that struggle's shocking casualty toll of 24,000 and it would become a major defeat for the South. By any Civil War standard, Stones River was a monumental, bloody, and dramatic story. Yet, until now, it has had no modern, documented history. Arguing that the battle was one of the significant engagements in the war, noted Civil War historian James Lee McDonough here devotes to Stones River the attention it ahs long deserved. Stones River, at Murfreesboro, Tennessee, was the first big battle in the union campaign to seize the Nashville-Chattanooga-Atlanta corridor. Driving eastward and southward to sea, the campaign eventually climaxed in Sherman's capture of Savannah in December 1864. At Stones River the two armies were struggling desperately for control of Middle Tennessee's railroads and rich farms. Although they fought to a tactical draw, the Confederates retreated. The battle's outcome held significant implications. For the Union, the victory helped offset the disasters suffered at Fredericksburg and Chickasaw Bayou. Furthermore, it may have discouraged Britain and France from intervening on behalf of the Confederacy. For the South, the battle had other crucial effects. Since in convinced many that General Braxton Bragg could not successfully command an army, Stones River left the Southern Army torn by disension in the high command and demoralized in the ranks. One of the most perplexing Civil War battles, Stones River has remained shrouded in unresolved questions. After driving the Union right wing for almost three miles, why could the Rebels not complete the triumph? Could the Union's Major General William S. Rosecrans have launched a counterattack on the first day of the battle? Was personal tension between Bragg and Brackenridge a significant factor in the events of the engagement's last day? McDonough uses a variety of sources to illuminate these and other questions. Quotations from diaries, letters, and memoirs of the soldiers involved furnish the reader with a rare, soldier's-eye view of this tremendously violent campaign. Tactics, strategies, and commanding officers are examined to reveal how personal strengths and weaknesses of the opposing generals, Bragg and Rosecrans, shaped the course of the battle. Vividly recreating the events of the calamitous battle, Stones River - Bloody Winter in Tennessee firmly establishes the importance of this previously neglected landmark in Civil War history. James Lee McDonough is professor of history at Auburn University, and author of Shiloh - In Hell before Night, Chattanooga - A Death Grip on the Confederacy, and co-author of Five Tragic Hours: The Battle of Franklin.

Includes an excerpt from A queen of gilded hours.

The book examines uncertainty of command at the army, corps, and division levels and emphasizes the confusion and fear of ground combat at the level of company and battalion - "where they do the dying." Its gripping description of the battle is based on government records, a rich selection of first-person accounts from veterans of both sides, and author Edward G. Miller's visits to the battlefield. The result is a compelling and comprehensive account of small-unit action set against the background of the larger command levels. The book's foreword is by retired Maj. Gen. R. W. Hogan, who was a battalion commander in the forest.

The tragic history of conflict between the Europeans and indigenous peoples spans the globe from Mexico to Australia to Africa to show the effects of the European colonial sweep.
