Chalunka is a village in the Chorbat area of the Shyok River valley in Ladakh, Jammu and Kashmir, India. At the end of the Indo-Pakistani War of 1947, it was on the cease-fire line agreed between the India and Pakistan. The village is now interior to Indian-administered Kashmir as further territory to the north of it was captured in Indo-Pakistani War of 1971. The Chalunka village is in the Nubra Tehsil and the Turtuk community development block.

The Jammu Kashmir Liberation Front (JKLF) is a political organisation active in both Pakistan-administered and Indian-administered Kashmir. It was founded by Amanullah Khan, with Maqbool Bhat also credited as a co-founder. Originally a militant wing of the Plebiscite Front, it changed its name to JKLF in Birmingham, England on 29 May 1977. From then until 1994 it was an active militant ...

Among cataclysmic events that have shaped India's post independence history, none compare with the conflict 'in' and 'over' the erstwhile princely state of Jammu and Kashmir. Kashmir is truly unique as not only is it the nub of the Indo-Pak feud, but also with her other adversary – China. Historically speaking, Kashmir has remained a frontline ever since the Great Game. In view of China's growing outreach and the fact that Kashmir's occupied territory link both India's adversaries,

it portends volatility in the India-Pakistan-China triangular relationship. Brig Amar Cheema's well-researched endeavour recounts the Kashmir imbroglio beyond episodic accounts but by providing the record in continuum; provides a broader perspective. The Crimson Chinar delivers a blow-by-blow account of the many 'wars,' and continues the narrative through the phases of 'No War-No Peace,' 'insurgency' and 'limited war' that have progressively ravaged the state. The context and geo-strategic environment has been re-created based on in-depth research and captured the rationale of the times. The important take away being; 'wherever' and 'whenever' India has responded 'pro-actively' and with determination, results have been significantly different; 1965, 1971 and

Siachen being prime examples. With myriad external and internal dimensions, Kashmir continues to cast shadows on the progression of the sub-continent. Peace remains as elusive as it was in the forties; if anything, the adversaries – both known and unknown, have grown stronger. While the reasons for the conflict may have changed with the times, the underlying causes remain as profound as they were decades ago.

This book critically examines the politico-military strategy of India, Pakistan, and Bangladesh during the Bangladesh Liberation War of 1971. What began as a power struggle and cultural conflict between West and East Pakistan, later compelled India to intervene—an intervention that decisively shaped and influenced the

geo-politics of the region and the global order. This volume is a systematic study of the situation of events, operational art and tactics, cold war politics, international reactions, and their impact on the formulation of the national grand strategy of all three nations. The book discusses various key themes such as the creation of Pakistan and events leading to its secession, the military geography of East Pakistan, state of armed forces of India and Pakistan and India's humanitarian intervention, the role of Mukti Bahini, and the ambiguous stance of the United Nations in the war. The book offers an appraisal of the performances of the opposing forces and reflects on the inevitability of war and its outcome. It also gives an overview of the state formation of the three nations,

encompassing the defining moments of the modern history of these South Asian countries and highlighting the socio-economic progress they have made half a century after the liberation war. A compelling treatise in the history of politico-military strategy, this book will be of interest to scholars and researchers of politics and international relations, partition studies, modern history, military history, South Asian studies, international security, defence and strategic studies, language politics, Islamic history, and refugee and diaspora studies. It will also appeal to general readers interested in the histories of Bangladesh, Pakistan, and India.

Both the writers have been into the process for almost last two years and have obtained the required details from all the possible available sources, researched it well and have given it a wonderful shape, to help anyone who wants to know about Indian Military & Rescue Operations. Dr. H.K. Pandey has a varied experience behind him being the present Head of the Department of Defence and Strategic Studies at Meerut College, Meerut. He has always positive attitude toward his subject. His knowledge and mastery on the subject is enormous. Manish Raj Singh, is a student in the Department of Defence and Strategic Studies at Meerut College, Meerut has shown keen interest and dedication

He has left no stones unturned to get the details about the topics of the subjects and comes out with the best possible outcome. His knowledge of the subject is evident from the work produced in this detailed book. The book has wonderfully covered the background, political views, role, tasks and the major technological development during these military and rescue operations. The book shall be of great help to the students of Defence Studies/Military Science of various Colleges and Universities all over India to get a fair idea about the strengths of India's Operations to enhance their knowledge about operations for their use in subject for competitive examinations as applicable to them at various levels of their career. The

general readers too will get a fair idea about the strength of Indian Forces during these operations at national and international level. This will give them the confidence to work hard in their concerned fields towards the development of a stronger India that is capable to take on its adversaries neighboring countries anytime and defeat their ongoing plans to imbalance its development as a power in South Asia. I once again congratulate both the writers for giving a comprehensive concise look at Indian Operations through their book and wish them all the success in their future endeavors. Maj. Gen. In 2000, Bill Clinton declared it the most dangerous place in the world and since then the situation continues to escalate. Positioned between India, Pakistan and China - three nuclear powers - Kashmir is the most militarized zone on the planet. Against this backdrop, the urgency to understand what Jammu and Kashmir means to those who actually belong to its territory has increased. This book not only helps readers navigate subtleties in a complex part of the world but is the first of its kind - written for a global audience from local perspectives, which to date have been

In tribute to Co-Editor Amar Cheema, Brigadier General (R) We wish to dedicate this collaborative effort arguing for a more profitable approach to ending and pre-empting conflict as a fitting, living tribute to our Dear Friend, Colleague and Co-Editor, Brig. Amar Cheema, the consummate Soldier, Scholar and Gentleman. Brig. Cheema embodied the concept of "no one appreciates peace and stability as much as a Soldier". Editing and Co-authoring our book focused on using all elements of National Power to

In October 1950, Communist China invaded Tibet. After nine years of difficult co-habitation with the occupiers, the Dalai Lama, the young temporal and spiritual leader of the Tibetans, had no choice but to flee his country to take refuge in India. It took 20 years for the Tibetans to renew a dialogue with the leaders in Beijing. Soon after Deng Xiaoping's return to power in 1978, the first contacts were made. Using rare documents, this is the story of thirty years of encounters between the Tibetan Administration in Dharamsala and Beijing. Today the stalemate continues; Beijing refuses to offer any sort of concession to the Dalai Lama's demand for a genuine autonomy for Tibet. Just like the

border 'talks' between India and China, the negotiations with Dharamsala have never really started. Reading through this book one understands how the relations between India and China are inextricably linked to the status of Tibet. Further, the present unrest in Tibet renders China unstable and increasingly belligerent towards India which gave refuge to the Tibetans.

Postindependence, the Indian Army has been rendering invaluable service to the nation in the sphere of national integration, national defense, and national stability. This book is a record of that service from 1947 to 1984. A strong professional army at the command of the Indian Union was an important factor, which weighed with many Indian princes when they chose

to sign the Instrument of Accession in 1947. With its personnel drawn from all parts of the country, belonging to different religious, linguistic, and ethnic groups and living together in complete harmony, the army has been a living symbol of national integration. This book gives an admirable account of the battles fought during these wars. It is not a drum-and-bugle history trying to glorify events and cover up failures. The author has produced an objective account after painstaking research.

Examines the strategic and historical circumstances surrounding the British creation and handing over of the Princely State of Jammu and Kashmir, the Maharaja's accession to India, and the unintended consequences of these actions.

History has thrilling accounts of brilliant Generals leading small armies to defeat huge forces of their opponents. Better the Generalship, greater the victories. The Indian Army too has produced many great Generals, who have defeated evil designs of adversaries. Yet they have produced none like Rommel, Manstein, Model, or even like our old warriors Maharana Pratap, Hari Singh Nalwa, or Zorawar Singh. India can and must produce Generals of that calibre; Generals who don't just defend territory or restore status quo, but those who annihilate aggressors, to teach memorable lessons to adversaries who transgress, who initiate punitive actions for conventional and nuclear deterrence

to be effective. To produce Generals of such calibre, the first step is to understand what is good Generalship. Then study Generalship in previous conflicts to appreciate achievements and also learn lessons from opportunities missed. Only then can the Armed Forces institute measures to improve the quality of Generalship for the future. This book is written to facilitate such study, in that order.
