decade ago, mining was little more than a niche hobby for a small group of cryptography enthusiasts with a desire to support a radically innovative currency. Today, crypto mining has become a burgeoning enterprise, complete with complex, specialized equipment and dozens of stakeholders, from semiconductor manufacturers to regional utilities.

Cryptocurrency Mining - Kraken Blog

How Cryptocoin Mining Works. The focus of mining is to accomplish three things: Provide bookkeeping services to the coin network. Mining is essentially 24/7 computer accounting called "verifying transactions." Get paid a small reward for your accounting services by receiving fractions of coins every couple of days.
