About the Book: This book Engineering Mathematics-II is designed as a self-contained, comprehensive classroom text for the second semester B.E. Classes of Visveswaraiah Technological University as per the Revised new Syllabus. The topics included are Differential Calculus, Integral Calculus and Vector Integration, Differential Equations and Laplace Transforms. The book is written in a simple way and is accompanied with explanatory figures. All this make the students enjoy the subject while they learn. Inclusion of selected exercises and problems make the book educational in nature. It shou.

Engineering Mathematics-II

Engineering Mathematics-I is a comprehensive text For The students of Engineering and Technology. This book provides an exhaustive understanding subject like mathematics, understanding of the mathematical language has been made easier with the help of numerous review questions and graded exercises. The topics included are Differential Calculus with Partial Differentiations, Integral Calculus, Vector Calculus and Linear Algebra including Transformations. Salient Features: * Each topic is treated in a systematic and logical manner. * in each unit variety of problems are solved. * Each unit has a separate question bank with multiple choice problems. * Several worked out examples are drawn from various examination papers of reputed universities.

Engineering Mathematics - II is designed as per the latest MAKAUT syllabus for first year second semester engineering students for all streams except CSE & IT. This book seeks to build fundamental concepts as well as help students in their semester examination. Each topic of the book is lucidly explained and illustrated with a wide variety of examples. It provides crisp but complete coverage of topics which will help students in their higher semester examinations. Salient Features: • Written according to the latest syllabus of MAKAUT. • Excellent coverage of Multiple Integral, Complex Analysis, Differential Equations. • Step-by-Step approach illustrated with examples and diagrams. • Solved university questions in each chapter. • Solution of 2019 MAKAUT question Paper. • Rich pedagogy: 296 Solved Problems, 88 Multiple Choice Questions and 225 Exercise problems.

This book has been designed as per the Mathematics - 2 course offered in the first year to the undergraduate engineering students of GTU. The book provides in-depth coverage and complete explanation of topics which will help in easy understanding of the basic concepts. The methodical approach followed in the book will enable readers to develop a logical outlook for the course. Salient Features: Complete coverage of the GTU syllabus Solutions of GTU examination questions within chapters Diverse pedagogy o Chapter outline, Points to remember etc. o Solved examples within chapters: 649 o Unsolved problems within chapters: 561

This book is designed to build up a strong foundation for the new students entering in Engineering field. It is strictly as per the revised syllabus prescribed by AICTE model curriculum. It has been written to fulfill all the requirements of B.E./B.Tech second semester students (All Branches of Engineering) of Chhattisgarh Swami Vivekanand Technical University, Bhilai. The essential feature of this book is that apart from theoretical background, it provides sufficient number of solved examples with detailed steps in easy and simple language along with problems for practice. Suitable figures have also been incorporated to ensure an easy understanding of the concepts. Short and very short answer type questions are also included. We hope that this book will be of great use for which it has been designed
