Genetics and - Nuffield  
Council on Bioethics  
The Nuffield Council on  
Bioethics has published  
a Report, Genetics and  
human behaviour: the  
ethical context, which

# Where To Download

examines the ethical, legal and social issues that behavioural genetics raises. This summary sets out some of the arguments and recommendations which are discussed in more detail in the Report.

How genetic influence on human behaviour changes in time and place. Research shows how genes affect educational attainment and fertility in different times and places. A new study led by Professor Melinda Mills shows

# Where To Download

that genes linked with education and fertility depend on when and where you live. This means we could be missing important variations when we try to draw conclusions about the influence of genes on human behaviour, because combining data sets from vastly different countries and ...

In this (Nuffield Council  
on Bioethics 2002), the  
third in its series on  
ethics and related issues  
in genetics (see also  
Nuffield Council on  
Bioethics 1993 and  
Nuffield Council on  
Bioethics 1998), the  
Nuffield Council has  
focused on four  
'normal' behaviors;

# Where To Download

intelligence, personality, antisocial behavior and sexual orientation. This is a narrow range of behaviors and one where their discussion of the potential impact of predictive genetic testing is probably inappropriate.
