"The Ballot or the Bullet" is the title of a public speech by human rights activist Malcolm X. In the speech, which was delivered on April 3, 1964, at Cory Methodist Church in Cleveland, Ohio, Malcolm X advised African Americans to judiciously exercise their right to vote, but he cautioned that if the government continued to prevent African Americans from attaining full equality, it might be necessary for them to take up arms. It was ranked 7th in the top 100 American speeches of the 20th century by 137 leading scholars of American public address. "It's time for us to submerge our differences and realize that it is best for us to first see that we have the same problem, a common problem - a problem that will make you catch hell whether you're a Baptist, or a Methodist, or a Muslim, or a nationalist. Whether you're educated or illiterate, whether you live on the boulevard or in the alley, you're going to catch hell just like I am." Malcolm X

This book focuses on obtaining more detailed information about bilingual voting assistance from selected jurisdictions across the country. The book's objectives were to determine: the ways that selected jurisdictions covered under Section 203 of the Voting Rights Act have provided bilingual voting assistance as of the November 2006 general election and any subsequent elections through June 2007, and the challenges they reportedly faced in providing such assistance; the perceived usefulness of this bilingual voting assistance, and the extent to which the selected jurisdictions evaluated the usefulness of such assistance to language minority voters. This is an excerpted and indexed edition.

Just in time for election season, Dan Gutman's hugely popular THE KID WHO RAN FOR PRESIDENT is back. Humor, adventure, and excitement will draw kids into the world of elections and politics. "Hi! My name is Judson Moon. I'm 12 years old and I'm running for President of the YOU-nited States." So begins this fast-paced, funny, and surprising account of a boy's run for the Oval Office in the year 2000. Under the tutelage of Lane, his brainy friend and self-appointed campaign manager, the affable sixth-grader from Madison, Wisconsin, takes on the Democrats and Republicans as a Third Party candidate who can make waves. "Grown-ups have had the last one thousand years to mess up the world," Judd tells a reporter. "Now it's our turn."

Illustrated in rich pastels, this child's-eye view of an important milestone in South African history allows young readers to experience every detail of this eventful day.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The stories of the individual activists and political groups that revitalized this use of Initiative and Referendum.

Discusses who can vote, how and where to vote, who votes and who does not, and how to vote wisely.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes

on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

The final volume covers controversial issues of voting fraud, disenfranchisement, recounts, new technologies, and the like and includes discussion of the Florida recount in the 2000 presidential election, the impact of improperly trained poll workers, exit poll controversies, voting rights for people with disabilities, the Help America Vote Act, online voting and voter registration, electronic voting companies, and public confidence in elections.
