A most reliable guide to practical astrology, Notable Horoscopes does not contain startling predictions and amazing Page 42/70

forecasts. But it is the product of investigations and studies by the author presented here in an orderly and scientific form but in simple language easily understandable by the average reader.

Medical astrology is a specialized branch of Vedic astrology. It is Page 43/70

an extraordinary predictive and counseling tool. A horoscope indicates good, bad or indifferent traits and physical, emotional or spiritual characteristics of the native as per the Karmic flow. A chart is only the representation of onels Karmic Page 44/70

implications in onels life through planetary influences. The medical astrology helps in understanding well in advance where the human chain is the weakest in the physical body and why. An astute astrologer will be able to diagnose disease and the diseased Page 45/70

body part merely by analysis of the horoscope. He should be able to tell the susceptibility or the resistance which a native has for a particular disease. He may be able to tell the period of onset/ recovery from the disease and can also suggest the remedial measures to reduce Page 46/70

its severity without any side effect. Once this is known, it will be easier for medicos to quickly arrive at the cause and place of diseased body part and the treatment to which the patient will respond. The diseases are generally indicated by the malefic influences of planets. Houses, Page 47/70

signs and Nakshtras wherein the planets are placed indicate tendencies. susceptibility, resistance and potential of various ailments in the body. When these potential will manifest depends upon the dasha periods and transit of planets. The numbers of diseases which a Page 48/70

native may have to encounter are numerous. However this book touches upon 112 diseases with the help of 102 illustrative charts. The last (16th) chapter of this book is devoted to common astrological remedies with a new Karmic and practical point of view to propitiate evil Page 49/70

planets causing to ailments.

First a little background about the book. The moment this book came out in the market, it became instant bestseller. In fact, there is nothing to be surprised about it, as the very name of Narayan Dutt Shrimali suggests mastery Page 50/70

over the subject, and any book on palmistry or astrology written by him deserves such reception by readers. According to palmistry our destiny is imprinted on our palms. The thinnest line on the palm has its own significance even a single threadline is important. Given the vast scope Page 51/70

of the subject, this authoritative book on palmistry contains all aspects of this ancient art with clear illustrations and completes information in simple language. The author has given the gist of Indian as well as western views on palmistry and has maintained the fundamental Page 52/70

differences and causes thereof. This practical self-learning compendium illustrates more than 240 palmistry combinations (Yog) which have been thoroughly explained. Not only the common readers but also experts of astrology and palmistry will also be greatly benefited Page 53/70

Ascribed to the ancient Skanda Purana, Srigurugita is a book for chanting and understanding the salience of Guru in one's life. Additionally, this book may also serve the dual purpose of enhancing our understanding of Page 54/70

Sanskrit grammar.

This book provides an insight into the importance of astrology viz., natal, electional and horary, as well as deals with other dimensions of this science such as spirituality, spiritualism, Ayurveda, transmigration of Page 55/70

souls, thoughtreading, dreams, temple and its rituals and effects of particular sins. The work presents new theories and methods of determining success and defeat in contests and wars with the help of illustrative charts. It urges readers to avoid fatalism Page 56/70

commonly associated with predictions and explains how one could solve riddles in life and tide over the pessimistic attitude and related psychological problems. The author has thrown fresh light on some questions like the name of the author of Prasnamarga, line of Page 57/70

succession of his pupils, and the authorship of the Dasadhyayi. The most significant contribution of this work is the clear exposition of the rules of Astamangala and Devaprasna, in addition to Candragupti (waterdivination), martial problems, Page 58/70

Coragrahas, vate Necromancy, special importance of Mandi and Dasa of its star, Kalacakradasa, etc.

This book is about understanding equations of relationships with the help of Vedic Astrology. One cannot ignore the importance of relationships in life Page 59/70

and always desires to be loved and respected by others. The book gives an approach for making relationships better if one understands the potential of planets in the birth chart. By understanding the weak and strong points in the chart one can mould himself accordingly and move Page 60/70

in the right direction to get the desired result and improve his relationships and living.. In each chapter - the converse charts are taken to describe the events however it advisable that no prediction should be made by studying the charts on the surface only. All factors

should be taken into consideration while predicting an event and the reading should be done by scientific approach only. A special chapter in the beginning is given for the reader to make him understand the terminology and its role in understanding the chart which will Page 62/70

then enable him to understand and improve his relations via Vedic Astrology easily. Though the calculative part has been explicitly ignored to make reading easy, the combinations, the in depth analysis and use of simple tools, the use of converse charts and their analysis will stimulate Page 63/70

the mind for deep study and make it interesting for all. Each chapter is supported with suitable examples. All cases taken are genuine and supported by real incidents. The book is a result of some authentic research done by the author over the years.

Treatise on Hindu astrology.

There have been innumerable requests for writing a book on Palmistry. The author has written a book that gives the basics of this science.

Page 65/70

Palmistry has been there from the early ages and we find literature where Sanskrit language has been used in explaining issues of this science in the early Vedic ages. In this book the author has tried to explain the uniqueness of each hand and as to how it helps in Page 66/70

deciphering vate characteristics. In the science of hand reading importance is given to the shape, size, lines and the marks on hand. These have been dealt in details through various chapters in the book. Palmistry is in no way related to the science of Occultism but can Page 67/70

be divided into two parts viz the art of reading character from the shape of hands/ fingers and the science of reading the actions and habits. Also it gives an insight of the future if one is able to correlate the shape of the hand with the lines marked thereon. The author has in the various Page 68/70

chapters tried to explain various factors like the size. shape, texture, lines and marks that help in deciphering character and the actions that a person is prone towards. This is a basic book on Palmistry which will be useful reading to all. One could develop on these basics for a Page 69/70

greater understanding of the subject.
