Hrebiniak, Making Strategy Work: Leading Effective ...

MAKING STRATEGY WORK IS MORE DIFFICULT THAN THE TASK OF STRATEGY MAKING Execution is critical to success. Execution represents a disciplined process or a logical set of connected activities that enables an organization to take a strategy and make it work. Without a care- ful, planned approach to execution, strategic goals cannot be attained.

Without effective execution, no business strategy can succeed. This second edition delivers a powerful framework every leader can use to overcome the obstacles to successfully deploying business strategy. In this book, leading consultant and Wharton professor Lawrence Hrebiniak offers a comprehensive, disciplined process model for making strategy work in the real world. Drawing on his unsurpassed experience, Hrebiniak shows why execution is even more important than many senior executives realize, and sheds powerful new light on why businesses fail to deliver on even their most promising strategies. He offers a systematic roadmap for execution that encompasses every key success factor: organizational structure, coordination, information sharing, incentives, controls, change management, culture, and the role of power and influence in your business. With three new chapters, expanded coverage, and new examples, the Second Edition of this highly successful book is the definitive guide for turning strategy into action.

Without effective execution, no business strategy can succeed. Unfortunately, most managers know far more about developing strategy than about executing it -- and overcoming the difficult political and organizational obstacles that stand in their way. In this book, leading consultant and Wharton professor Lawrence Hrebiniak offers the first comprehensive, disciplined process model for making strategy work in the real world. Drawing on his unsurpassed experience, Hrebiniak shows why execution is even more important than many senior executives realize, and sheds powerful new light on why businesses fail to deliver on even their most promising strategies. Next, he offers a systematic roadmap for execution that encompasses every key success factor: organizational structure, coordination, information sharing, incentives, controls, change management, culture, and the role of power and influence in your business. Making Strategy Work concludes with a start-to-finish case study showing how to use Hrebiniak's ideas to address one of today's most difficult business execution challenges: ensuring the success of a merger or acquisition.

A hands-on guidebook for making your strategy work with effective Balanced Scorecard design, deployment, and maintenance Execution Excellence is the practitioner's guide to real-world implementation. Designed by a Balanced Scorecard (BSC) thought leader with 30 years of experience and over 300 global implementations under his belt across a range of industry sectors, this guide gives you a hands-on framework for putting the BSC methodology into action. Clear, concise, and easy to read, this book skips the theoretical exposition to get right to the point—how can companies use BSC to effectively deploy strategy and drive individual and enterprise performance? You'll find the answers here. The discussion outlines the ways in which firms commonly fail in implementing BSC. These failures can be traced back to common design and implementation flaws: making the process too complicated and focusing on the BSC process rather than the outcome. The discussion will also cover design optimization across a range of key industry sectors. You'll gain expert insight into avoiding these missteps and the practical tools and perspective you need to implement BSC correctly the first time. While the Balanced Scorecard framework is widely accepted and praised, about half of firms that implement it fail to realize the full benefits. The fault lies not with the framework, but with the design, and more importantly—execution. This book gives you the information and tools you need to adopt BSC successfully. Design a BSC that truly and simply reflects your strategy Customize the BSC to reflect your industry's uniqueness Define clear measurements and ownership that suit your strategy Develop a framework for efficient data collection and reporting Implement effective reviews to keep your business on track Use your Balanced Scorecard data to close performance gaps Developed in the early 1990s, the Balanced Scorecard framework has been recognized as one of the most seminal business

ideas in the last 75 years. Thousands of companies around the world use BSC to create and maintain a performance-oriented enterprise, yet just as many try and fail. Execution Excellence shows you what you need to know and do to become a BSC success story. Praise for EXECUTION EXCELLENCE "Execution Excellence is a very clear roadmap for any manager serious about improving performance with a team. Sanjiv has decades of experience solving problems with real-world companies and the challenges they face. This is a superb summary of his learning, communicated in concise, specific and easy to understand steps. I highly recommend it." □RON SANDERS, President, Warner Bros. Worldwide Home Entertainment "This book is full of sensible, practical advice on how to improve your business using the powerful tools of the Balanced Scorecard. Businesses of all types can see how to achieve their goals more effectively and quickly if they adopt the techniques shown here. Read and prosper!" □JON MOULTON, Founder and Managing Partner, Better Capital "Sanjiv certainly did not disappoint. The book is certainly a compendium of incredible experience he has had as a Consultant in different circumstances. It makes for extremely interesting reading. It is full of substance with practical and implementable suggestions and explains in an incredibly simple and straight forward manner how a tool like the Balance Scorecard can help in terms of framing and implementing business strategy in today's complex and multi dimensional business world." □AKHIL GUPTA, Vice Chairman, Bharti Enterprises "If you ever wondered how great generals manage their troops, this is your chance. Sanjiv is the general when it comes to implementing the BSC, having seen him in board rooms. If you are passionate about execution, then this is your back pocket guide. If you want more, read between the lines." □SALEH LOOTAH, Chairman, Ssl Holdings, Former Board Member, Dubai Islamic Bank "Sanjiv's thirty year experience in helping firms drive enterprise and individual performance, and bringing alignment between these components comes clearly through in this book. The insights are practical, global, and across industry sectors. A must read!" □LEENA NAIR, Chief Hr Officer, Unilever

How to close the gap between strategy and execution Two-thirds of executives say their organizations don't have the capabilities to support their strategy. In Strategy That Works, Paul Leinwand and Cesare Mainardi explain why. They identify conventional business practices that unintentionally create a gap between strategy and execution. And they show how some of the best companies in the world consistently leap ahead of their competitors. Based on new research, the authors reveal five practices for connecting strategy and execution used by highly successful enterprises such as IKEA, Natura, Danaher, Haier, and Lego. These companies: □ Commit to what they do best instead of chasing multiple opportunities □ Build their own unique winning capabilities instead of copying others □ Put their culture to work instead of struggling to change it □ Invest where it matters instead of going lean across the board □ Shape the future instead of reacting to it Packed with tools you can use for building these five practices into your organization and supported by in-depth profiles of companies that are known for making their strategy work, this is your guide for reconnecting strategy to execution.

Argues that a manager's central responsibility is to create and implement strategies, challenges popular motivational practices, and shares anecdotes discussing how to enable action-oriented plans for real-world results.

#1 NEW YORK TIMES BESTSELLER □ More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. □A must-read for anyone who cares about business.□□The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of □the discipline of execution□: the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is more important than ever. Now and for the foreseeable future: □ Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. □ Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. □ Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. □ Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a □vision□ and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world□including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup□Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan.

Making strategy requires undertaking major□often irreversible□decisions aimed at long-term success in an uncertain future. All leaders must formulate a clear course of action, yet many lack confidence in their ability to think systematically about their strategy. They struggle to apply the abstract lessons offered by conventional approaches to strategic analysis to their unique contexts. Making Great Strategy resolves these challenges with a straightforward, readily applicable framework. Jesper B. Sørensen and Glenn R. Carroll show that one factor underlies all sustainably successful strategies: a logically coherent argument that connects resources, capabilities, and environmental conditions to desired outcomes. They introduce a system for formulating and managing strategy through a set of three core activities: visualization, formalization and logic, and constructive argumentation. These activities can be implemented in any organization and are illustrated through examples and case studies from well-known companies such as Apple, Walmart, and The Economist. This book shows that while great strategic thinking is hard, it is not a mystery. Widely applicable and relevant for managers and leaders at all levels, especially executive teams charged with setting the course of their organizations, it is essential reading for anyone faced with practical problems of strategic management.
