Provides quick and easy access to all the important aspects of software architecture in business; Highlights a wide variety of concepts of software architecture in a straightforward manner, for students, practitioners, or architects; Presents different applications of software architecture in business.

The famous 1962 Port Huron Statement by the Students for a Democratic Society (SDS) introduced the concept of participatory democracy to popular discourse and practice. In Inspiring Participatory Democracy Tom Hayden, one of the principal architects of the statement, analyses its historical impact and relevance to today's movements. Inspiring Participatory Democracy includes the full transcript of the Port Huron statment and shows how it played an important role in the movements for black civil rights, against the Vietnam war and for the Freedom of Information Act. Published during the year of Port Huron's 50th anniversary, Inspiring Participatory Democracy will be of great interest to readers interested in social history, politics and social activism.

Brianna can see her future, but it's the past that haunts her. Plans laid in place centuries ago are threatening not only her and her sister, but all of the Seven Lines. As the shadows plot their way to old rule, the visions shift again. Her power has led to some hard choices—and the occasional stab wound—but this set of futures holds nothing but darkness. Unable to bear the idea of losing the footing they've so recently gained, she turns the soldiers of the Seven. But with shadows hidden among the ranks, can she overcome the path they've set in place, or is she blindly following their lead?

This text contains a very practical engineering orientation with many real-world industrial control examples and problems. Coverage includes plantwide control and the interactions between steady-state design and dynamic controllability. MATLAB is used as a computer-aided analysis tool. Additionally, many examples and an extensive selection of problems are included.
