Modern Marine Engineer's Manual by Everett C. Hunt  
This manual, first published in 1943, has been absolutely indispensable to ship's engineers for generations. The third edition, revised and updated by a team of marine engineers/professors, follows in the venerable style of its predecessors. Text relating to obsolete equipment has been eliminated; information on systems that are still current has been updated; and new material has been added to reflect innovations in equipment and operative practices.
