In 1962, Piper added the Cherokee 180 (PA-28-180) powered by a 180-horsepower (134-kW) Lycoming O-360 engine. The extra power made it practical to fly with all four seats filled (depending on passenger weight and fuel loading) and the model remains popular on the used-airplane market.

Piper PA-28 Cherokee - Wikipedia

When the Cherokee 180 was introduced in 1963, Piper's average equipped price was only \$15,100, whereas the Skyhawk (with normal options) cost \$14,751. The Cherokee was a little dearer, but not by much. Inevitably, the basic Piper 180 was improved as it matured.

Piper PA 28 180 Review: Expert Analysis #2 | Piper Owner ...

The Piper Cherokee has a single door on the co-pilot side, which is entered by stepping on the wing. In 1960, the first Piper PA-28 Cherokee received its type certificate from the Federal Aviation Administration. This series is still in production today. The Cherokee 180 was named the Piper Challenger 1973.
