Textbook of Prosthodontics encompasses all the different subspecialities of prosthodontics like Complete Dentures (CD), Removable Partial Dentures (RPD), Fixed Partial Dentures (FPD), Oral Implantology (OI) and Maxillofacial Prosthetics (MFP) with an aim to demystify the subject. The book provides a strong basic foundation along with contemporary clinical and laboratory applications. The book is written in an easy -to-comprehend-and-remember style, the clinical and laboratory aspects are depicted with colour photographs, radiographs, line arts, tables, boxes and flowcharts to make text self-explanatory. Useful for UGs as a prosthodontic textbook, an easy-to-practice book for the general practitioners and a basic reference for the PGs

Covers basics of endodontic treatment like what are the indications of endodontic treatment, basic instruments, access preparation, biomechanical preparation and obturation of root canal system. Contains Teeth Chart along with the morphology of teeth and differentiate one tooth from another. Chapters dealing widely in introduction, description of teeth, instruments, nomenclature, tooth preparation, filling materials including endodontics.

The book aims in simplifying laboratory procedures in prosthodontics which solves the practical difficulties encountered by students. It comprises of pictorial representations, and the clinical application of each laboratory procedure. This will enable the student to observe, improve self-learning and also learn the text corresponding to each picture grasping the most probable exam questions. The target audience are not only undergraduate students it will be a refresher for first year Post graduate students and also of great help to Dental technicians. The learning ability of the students is more when they see pictures rather reading text explaining facts to which they aren't exposed initially. The book doesn't fail to include all short citation pertaining to each picture portrayed. Hence when a student is given an opportunity to read such books it will help them to retain, reproduce, perform and practice better.
