THE SUNDAY TIMES BESTSELLER The Nazis spared their lives because they were twins. In the summer of 1944, Eva Mozes Kor and her family arrived at Auschwitz. Within thirty minutes, they were separated. Her parents and two older sisters were taken to the gas chambers, while Eva and her twin, Miriam, were herded into the care of the man who became known as the Angel of Death: Dr. Josef Mengele. They were 10 years old. While twins at Auschwitz were granted the 'privileges' of keeping their own clothes and hair, they were also subjected to Mengele's sadistic medical experiments. They were forced to fight daily for their own survival and many died as a result of the experiments, or from the disease and hunger rife in the concentration camp. In a narrative told simply, with emotion and astonishing restraint, *The Twins of Auschwitz* shares the inspirational story of a child's endurance and survival in the face of truly extraordinary evil. Also included is an epilogue on Eva's incredible recovery and her remarkable decision to publicly forgive the Nazis. Through her museum and her lectures, she dedicated her life to giving testimony on the Holocaust, providing a message of hope for people who have suffered, and worked toward goals of forgiveness, peace, and the elimination of hatred and prejudice in the world.

A gripping biography of the infamous Nazi doctor, from a former Justice Department official tasked with uncovering his fate. Perhaps the most notorious war criminal of all time, Josef Mengele was the embodiment of bloodless efficiency and passionate devotion to a grotesque worldview. Aided by the role he has assumed in works of popular culture, Mengele has come to symbolize the Holocaust itself as well as the failure of justice that allowed countless Nazi murderers and their accomplices to escape justice. Whether as the demonic doctor who directed mass killings or the elusive fugitive who escaped capture, Mengele has loomed so large that even with conclusive proof, many refused to believe that he had died. As chief of investigative research at the Justice Department's Office of Special Investigations in the 1980s, David G. Marwell worked on the Mengele case, interviewing his victims, visiting the scenes of his crimes, and ultimately holding his bones in his hands. Drawing on his own experience as well as new scholarship and sources, Marwell examines in scrupulous detail Mengele's life and career. He chronicles Mengele's university studies, which led to two PhDs and a promising career as a scientist; his wartime service both in frontline combat and at Auschwitz, where his "selections" sent innumerable innocents to their deaths and his "scientific" pursuits—including his studies of twins and eye color—traumatized or killed countless more; and his postwar flight from Europe and refuge in South America. Mengele describes the international search for the Nazi doctor in 1985 that ended in a cemetery in Sao Paulo, Brazil, and the dogged forensic investigation that produced overwhelming evidence that Mengele had died—but failed to convince those who, arguably, most wanted him dead. This is the riveting story of science without limits, escape without freedom, and resolution without justice.

Reveals the experiences of twin children in the hands of Dr. Josef Mengele

Eva Mozes Kor, who had survived the holocaust as a young child, passed away on July 4, 2019, during her annual trip with students to Auschwitz. But Eva's legacy will live on and so will her life-changing message. Eva Mozes Kor was just ten years old when she was sent to Auschwitz. While her parents and two older sisters were murdered there, she and her twin sister Miriam were subjected to medical experiments at the hands of Dr. Joseph Mengele. Later on, when Miriam fell ill due to the long-term effects of the experiments, Eva embarked on a search for their torturers. But what she discovered was the remedy for her troubled soul; she was able to forgive them. Told through anecdotes and in response to letters and questions at her public appearances, she imparts a powerful lesson for all survivors that guilt, anger, resentment, and shame are a waste of energy. Forgiveness of our tormentors and ourselves is the end of victimization, a release from pain, and fosters resilience. This kind of forgiveness is not an act of self-denial. It actively releases people from trauma, allowing them to escape from the grip of their former tormentors, cast off the role of victim, and begin the struggle against forgetting in earnest. "She dedicated herself decades later to telling of the Holocaust horrors spawned by religious and racial hatred, while preaching the power of forgiveness as a means of healing from devastating trauma."—Richard Goldstein, *New York Times* obituaries, July 7, 2019

Natasza Pelinski is a young Polish Jew taken to Auschwitz. Her childhood stolen from her, she quickly matures and in the process discovers she has psychic gifts. She develops a relationship with the ghost of a professor, who becomes her spirit guide. He in turn enlists her aid on a mission of salvation for the Jewish people. As well as helping her survive in the brutal conditions of the camp, he teaches Natasza the secret of healing and how to move past anger toward compassion. She forms the Sisters of Light, a group of young women who, although they have few medicines to offer, bring gifts of love and forgiveness to their fellow prisoners. They form a bond of the heart that sustains them and keeps them connected through the horror of their daily existence. Author Tarra Light was raised in an East Coast Jewish family but had little knowledge of the Holocaust while growing up. During past-life regression therapy in 1996, she began to access a previous life as an inmate at Auschwitz. Her newly unlocked memories form the basis of this eloquent testimony to the power of the spirit in the most dire

circumstances.
