The Globalisation of Modern Architecture: The Impact of Politics, Economics and Social Change on Architecture and Urban Design Since 1990 Hardcover | Unabridged, 1 July 2012 by Robert Adam (Author)

The Globalisation of Modern Architecture: The Impact of ...

Robert Adam's The Globalisation of Modern Architecture takes a compelling and broad-ranging look at the output of the architectural world, writes James Pallister. It may seem an unlikely choice of subject for an architect known for being a practitioner of "traditional architecture", but Robert Adam has completed an impressively comprehensive and compelling survey of contemporary social and political theory.

The Globalisation of Modern Architecture: The Impact of Politics, Economics and Social Change on Architecture and Urban Design since 1990 By Robert Adam

The Globalisation of Modern Architecture

The globalisation of modern architecture: the impact of politics, economics and social change on architecture and urban design since 1900. The ideas behind globalisation have been developing since the dawn of the modern man, contrary to the notions that globalisation is often considered a fairly new development of the 20th century.

Globalisation of Modern Architecture - Austin Powers ...

Taking the break-up of the Soviet Union and the entry of Russia, China and India into the global market as the start of a new era of globalisation, Robert Adam compares new developments in architecture and urban design with major shifts in the balance of power since 1990. Based on the principle that design unavoidably follows social change, politics and economics, this analysis casts a new light on recent architecture.

The Globalisation of Modern Architecture: The Impact of ...

Modern architecture progressed with faith in reason. It introduced the concept of internationalization in architecture, whereby designs of offices, schools, hospitals and housing have been based on multifunction. This style, however, has been fast replaced by postmodernism in which concepts are set on universally accepted ideologies.
