Mental Status Examination. Department of Psychiatry and Behavioral Sciences. The Mental Status Exam is analogous to the physical exam: it is a series of observations and examinations at one point in time. Focused questions and observations can reveal "normal" or pathological findings. Although our observations occur in the context of an interview and may therefore be ordered differently for each patient, the report of our findings is ordered and "paints a picture" of a patient's appearance, ...

observations designed to reveal either pathological or normal findings. Then you would record all of your observations and results in a mental status exam template.

~~47 Free Mental Status Exam Templates (MSE Examples) —...~~

A mental status examination, just like a physical examination, is an intrusion on the patient's rights and should not be conducted against the patient's will. Before a physician performs a mental status examination, s/he must explain the procedure to the patient and ensure the patient understands that exam results will be documented.
