Overview. This collection of short stories, including many new translations, is the first to span the whole of Japan's modern era from the end of the nineteenth century to the present day. Beginning with the first writings to assimilate and rework Western literary traditions, through the flourishing of the short story genre in the cosmopolitan atmosphere of the Taisho era, to the new breed of writers produced under the constraints of literary censorship, and the current writings reflecting ...

The Oxford Handbook of Japanese Linguistics captures the excitement that comes from answering the question, "What can Japanese say about Universal Grammar?" Each of the eighteen chapters takes up a topic in syntax, morphology, acquisition, processing, phonology, or information structure, and, first of all, lays out the core data, followed by critical discussion of the various approaches found in the literature.
