The word “Soundscape” is a term coined by the composer and writer R. Murray Schafer which means our ever-present sonic environment. Through history this soundscape has continued to increase in complexity as the world of the post-industrial revolution continues to evolve. As our awareness concerning the dangers of toxic waste and environmental pollution grows, there is however a lack of awareness concerning the ever-increasing pollution of our sonic environment.

The Soundscape: Our Sonic Environment and the Tuning of ...

The soundscape—a term coined by the author—is our sonic environment, the ever-present array of noises with which we all live. Beginning with the primordial sounds of nature, we have experienced an ever-increasing complexity of our sonic surroundings. As civilization develops, new noises rise up around us: from the creaking wheel, the clang of the blacksmith’s hammer, and the distant chugging of steam trains to the “sound imperialism” of airports, city streets, and factories.

Schafer, R. Murray. The soundscape: our sonic environment ...

A soundscape is the acoustic environment as perceived by humans, in context. The term was originally coined by Michael Southworth, and popularised by R. Murray Schafer. There is a varied history of the use of soundscape depending on discipline, ranging from urban design to wildlife ecology to computer science. An important distinction is to separate soundscape from the broader acoustic environment. The acoustic environment is the combination of all the acoustic resources, natural and artificial,

Soundscape—Wikipedia

The geophysical environment produces a variety of in situ, contextual ambient sounds. Familiar such sounds are wind, rain, and running water, the frequencies of which occur between 100 Hz and 1 kHz with little rain, or between 100 Hz to 8 kHz during windy or moderate to heavy rain.

Soundscape Ecology: The Science of Sound in the Landscape ...

Dr Schafer’s concept of ‘soundscape’ as proved to be one of the most interesting and fruitful areas of research. Dr Schafer and his Vancouver team have written and analysed sound at a time of increasing intrusion of unwanted sound. Following ancient methods and others, he analyses sounds and noises along with Music.

The Soundscape: Schafer, R. Murray: 9780892814558: Amazon ...

Soundscape, the word, comes from the composer and acoustician R. Murray Schafer® (1977, instigator of the World Soundscape Project). For Schafer, soundscape is rooted in a concept of acoustic environment of any particular place and is thus closely linked to ecological alterations effected by architecture and landscape change.

Really listening to soundscapes—Early Modern Soundscapes

Sound, when understood as an environment, is a soundscape: a powerful tool that helps humans relate to their surroundings. They can be consciously designed by an individual or group of individuals, or the byproduct of historical, political, and cultural circumstances.

Soundscape: Our Sonic Environment and the Tuning of the ...

Thus, a combination of rigorous aural awareness of our environment and in-depth studies of all aspects of sound and the soundscape is a way in which the acoustic ecologist can tackle the sound problems in today’s world. Soundscape—The Journal of Acoustic Ecology

Soundscape—The Journal of Acoustic Ecology

The study of soundscape is the subject of acoustic ecology and refers to both the natural acoustic environment — consisting of natural sounds, including animal and sounds from trees, the sounds of water, weather — and environmental sounds created by humans — through musical composition, sound design, and other human activities, including sounds of mechanical origin resulting from use of industrial technology.

Designing the Urban Soundscape—The Nature of Cities

However, soundscapes are hugely complex and measuring them as a basis for environmental design requires a step change to the discipline. This research aims to achieve a ground-breaking development through the establishment of ‘soundscape indices’ (SSID), adequately reflecting levels of human comfort, the impact of which will be reminiscent of that of the Decibel scale created by Bell ...
