"Judd and Lionel narrowly escape with their lives in a harrowing rescue attempt in an apartment fire set by a murderer."--Back cover.

Will unbelievers and half-hearted churchgoers have 7 more years to make up their minds about Christ after He raptures the Church? LEFT BEHIND gives them all a 'second chance.' But is that what Jesus taught? His parables of the talents, the wise and foolish virgins, the wheat and the tares, and the faithful and evil servant all show him returning unexpectedly with both rewards and punishments in his hands. Neither the parables nor the plain words of Christ teach a second chance for those surprised by his coming. But LEFT BEHIND does. Few Christians realize LEFT BEHIND tosses aside the teachings of Luther, Calvin, Tyndale, Wesley, Wycliffe and Spurgeon. Read dozens of quotes from these and other respected sources that show LEFT BEHIND strays far from the truths Bible readers have understood for centuries. Author of JEHOVAH'S WITNESSES ANSWERED VERSE BY VERSE and MORMONS ANSWERED VERSE BY VERSE (Baker Book House), David A. Reed is known worldwide as an expert in refuting false prophecy.

Contemporary American horror literature for children and young adults has two bold messages for readers: adults are untrustworthy, unreliable and often dangerous; and the monster always wins (as it must if there is to be a sequel). Examining the young adult horror series and the religious horror series for children (Left Behind: the Kids) for the first time, and tracing the unstoppable monster to Seuss's Cat in the Hat, the author aims to shed new light on the problematic message produced by the combination of marketing and books for contemporary American young readers.

Lionel rushes to Chicago to try to save his Uncle Andre.

National expert Dr. Joseph Lee explains the nature of youth addiction and treatment, and how families can create a safe and supportive environment for their loved ones during treatment and throughout their recovery. National expert Dr. Joseph Lee explains the nature of youth addiction and treatment, and how families can create a safe and supportive environment for their loved ones during treatment and throughout recovery. Raising a child is tough as it is, but when your kid becomes addicted to alcohol or other drugs, it can feel as if you 're living a nightmare. You 're not alone. In Recovering My Kid, Dr. Joseph Lee, a leading youth addiction specialist, takes worried, confused, and angry parents by the hand and addresses their most pressing questions and fears: What is addiction? What happens when my child returns home from treatment? How can my family support

his or her recovery? What if my child relapses? How can my family get well again? Getting your child and your family well again requires the support and understanding of the whole family, even if feelings and trust were damaged. In his engaging and straightforward style, Lee explains the difficult concepts of addiction, treatment, and recovery in a way parents and families can understand and gives them concrete strategies they can put into practice. This book will help family members begin to understand what their loved one is going through and how they can help the addict adjust to a clean-and-sober life while still taking care of themselves.

This hearing, chaired by Representative Patricia Schroeder, was held to find ways to reduce the number of deaths and injuries that result from fires. Testimony or prepared statements were given by Representatives Schroeder, Michael Bilirakis, Romano Mazzoli, and Curt Weldon, as well as nine other individuals involved in fire safety issues, including professional fire fighters, members of fire safety groups, and concerned citizens. It was noted that the United States has one of the highest per capita fire death rates in the world, with roughly 6,000 fire deaths each year. Young children are at great risk of death and injury due to fire burns, with nearly 1,400 child fatalities and 14,000 serious injuries each year due to fires. The monetary costs of fires are tremendous, with over \$50 billion spent each year on property losses, medical and insurance costs, fire department expenditures, and fire protection costs. Careless smoking and playing with fire cause the most harm to children. Poverty and poor living conditions increase the risk of fire death and injury. Smoke detectors and other safety devices greatly reduce the chances of dying in a fire. Despite the effectiveness of such safety devices, more preventive and educational measures are needed. (MDM)

From best friends... Kelsey Watson's life seems to be ticking along just fine. She loves her firefighting job, she's happily single and she has a wonderful (and gorgeous) friend, colleague and housemate in paramedic Matt Fraser. To bride-to-be... Then Matt notices that a fierce fire in a primary school affects Kelsey more deeply than she's admitting. As he tries to help her get to the root of her problems, a deeper connection begins to emerge between them that neither of them expected—or knows how to handle!

A psychologist who barely survived a disastrous fire, Steven Shepard provides essential tips for avoiding fires and saving lives if one occurs. He advises readers in how to deal with the trauma of a fire 's aftermath, as well as how to talk to insurance companies.

The magazine that helps career moms balance their personal and professional lives.
